

What is Bank Contactless Debit Card?

Contactless Card is a fast and convenient way to pay for everyday purchases. It is a secure, contactless chip technology designed to help you spend less time at the cash register and give you the freedom to do the things that matter most to you.

How does the Contactless Card Work?

Step 1: Look for the contactless logo () at the point of sale.

Step 2: The cashier enters your purchase amount into the terminal. This amount will be displayed on the contactless reader.

Step 3: Hold your card over the reader or at the POS at close range (less than 4 cm from where the contactless logo appears).

Step 4: Four green indicator lights or a beep sound will indicate when the transaction is complete. A message will also be displayed on the screen indicating the transaction is complete. No PIN is required for amounts less than Rs. 5000.

Please note that in India, payment through contactless mode is allowed for a maximum of Rs. 5000/- for a single transaction where you are not asked to input your Debit Card PIN.

What are the benefits?

- Contactless payment functionality is specially designed for you for speed, convenience and security.
- There's no dipping, swiping, entering PIN or fumbling for cash. You're ready to go in just a few seconds. Ideal for places like fast-food joints, petrol stations, movie theatre etc.
- During a contactless transaction the card never leaves your hand. This greatly reduces the risk of card loss and fraud through counterfeit/skimming. A contactless card has its own, unique, built-in secret key, which is used to transaction, thus making it more secure.
- You don't need to look for cash/coins for small ticket everyday purchases. It is also easier to keep track of these expenses.

Is there a limit for a contactless transaction amount? Can I set my own Limit?

Payment through the contactless mode is allowed for a limit of maximum Rs. 5000/- for a single transaction in India. For any transaction amount more than Rs. 5000/- you will be asked to provide your Debit Card PIN.

This is maximum limit and common for all customers for a single contactless transaction and setting up higher limit will not be possible for single transaction.

Is there any difference in the process for ATM and Internet transactions for this Contactless Card?

There is no difference in transaction process for ATM or any Card not Present Transactions including Internet transactions. For ATM transactions you need to enter the PIN and for Internet transaction you need to enter your 3D secure PIN or OTP.
